

Innovation Networks & Knowledge Platforms

Building national innovation ecosystems through stakeholder engagement, knowledge sharing, digital platforms, and collaborative networks.

2 Innovation Networks | 2 Knowledge Platforms | 70+ Stakeholders

RESPONSABILITIES ACROSS PROJECTS

● Lead/Responsible

	Low Trophic Aquaculture	Blockchain & Food Traceability
Proposal development		●
Budget management		●
Network coordination	●	●
Knowledge platform	●	●
Website supervision	●	●
Webcrawler training	●	●
Workshop organization	●	●
Report & dissemination	●	●

KEY CONTRIBUTIONS & ACHIEVEMENTS

2

National innovation networks established

2

Knowledge platforms powered by automated news aggregation

70+

Coordinated AltaNet's transition into Norway's first national low-trophic aquaculture network, including its inaugural event attended by 70+ stakeholders.

HIGHLIGHT

National media coverage including participation from the Mayor at the network inauguration

CORE COMPETENCIES

Stakeholder Engagement Knowledge Management Community Building
Workshop Facilitation Digital Platform Management Content Management
Science Communication Cross-sector Collaboration Strategic Partnerships
